NEW! METAL TOOLS FOR PEDICURE

FUNGAL NAIL CLEANING PEDICURE TOOL

There is always some residual dirt underneath the lifted nail plate, which should always be removed before shortening the nail. We can't work with a sharp, thick tool under the nail because we can cause more harm under the nail plate. This type of fungal nail cleanser does not cause any damage because it has a blurred and not pointy end. It cannot lift more the already lifted part because it is narrow, so the residual dirt can be easily removed under the nail. The tool does not get worn and should not be sharpened. It can be disinfected by any disinfectant.

PEDICURE TOOL FOR INGROWN NAILS

WITH JAGGED EDGE

A common problem is pain in the side nail, which can be caused by hardening of the skin or the ingrown nails, which can be handled with a suitable stainless tool. After removing the nail heel, refine the side edge of the nail plate and file the free edges. The tool both sides have a jagged edge, one side is straight and the other one is slightly curved and thin to allow the easy access to the surface. Both the skin and the nails will be undamaged, it has designed for easy usage. The device does not wear out and should not be sharpened! Can be disinfected with any tool disinfectant.

APPLIED ON OTHER COLOR

Create a darker manicure, then apply the Cat Eye effect gel&lac in one layer. before you cure it, use the BrillBird cat eye magnet. In case of gel or professional gel&lac products you can apply the Cat Eye effect gel&lac on their sticky (non cleansed) surface.

In case of cleansing free products (Brush&Go gel and Brush&Go gel&lac, etc.) use the buffer gently on the nail surface before the application of the Cat Eye effect gel&lac.

Always use the magnet before the curing. As the last step apply the Top Mani Gel&Lac cover shine.

BB tip: hold the magnet (from above) close to the nails, in a bit diagonal position. Don't move the magnet for 10 seconds. Then lift the magnet vertically.

EXTRA CAT EYE MAGNET

Use our Cat Eye magnet to create new patterns. It's twice thicker than the traditional Cat Eye magnet, you can create more powerful patterns. On the other end of the magnet, with the small round magnet you can create more special pattern.

USED BY ITSELF

Prepare the nails, cover them with Bond gel, then apply the first layer of Cat Eye effect gel&lac. Cure them for 2 mins. Then apply a second layer. Before you cure them, use the magnet to get the cat eye effect. Cure the nails for 2 mins and cover with Top Mani Gel&Lac.
