# NEW! Next Level

## HEMA-FREE SELF-LEVELING, ZERO-FILE BUILDER GEL

The overwhelming success of our new building product line this fall has inspired the introduction of two new shades. Peachy Nude With its warm, natural tone, this shade evokes the delicate, understated beauty of sun-kissed skin. It's the perfect choice for those seeking a soft, fresh look. Latte Rose with a warm pink shade that radiates freshness and softness, ideal for baby boomer sets. Both colors adapt beautifully to any style, enhancing the natural features of the hand.

Perfect for filing-free techniques, both shades are ideal for construction and filling. While the gels are softer, their structure allows them to stay in place on the nail plate until you begin shaping them with the brush.

We recommend using a base gel like Hema Free Base Gel or the new Hema Free Mani Gel Extra Clear for better adhesion. The formula is free from HEMA and Di-HEMA.

### **Peachy Nude:**

This beautiful, warm peachy nude shade is perfect for those who want natural, fresh, and vibrant nails.

- Warm peachy nude tone for an elegant and natural look.

### **Latte Rose:**

Latte Rose is an elegant, cool-toned milky pink shade, perfect for those seeking a sophisticated and understated nail look.

- Cool-toned, soft milky pink that provides a sophisticated and modern appearance.
- Works perfectly on its own, but also great for French and baby boomer nails.

## HOW TO USE? step BY step

### Dual holo glitter, Glitters, Dual glitters, Micro Flakes

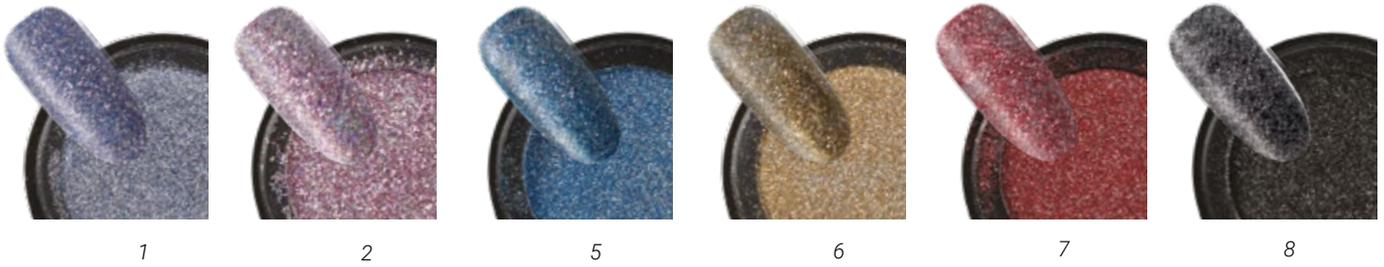

**To top:** Apply Nail Art Glue Gel a little thicker on the buffed nail, then pour in and slightly press in the chosen decoration. Fill with a little bit of nail polish, add a little bit of the nail art and a little bit of the nail. Because of the larger glitter grains, there is a greater chance of chipping, so this technique is recommended for occasional use.

**Built in gel:** 2 coats of the same color as the chosen decoration, then after the second coat, buff the nail, coat the surface with Nail Art Glue Gel and sprinkle the decoration. Apply the nail with a little C-curve using a transparent builder gel, close the edges and cover the nail with a little C-curve! After filing, fix the nail, shape the surface with a file/buffer and cover with Extra Top, closing the edges!

**Built in gel&lac:** Apply 2 coats of the same color as the chosen glitter to the nail, then after the second coat, Nail Art Glue Gel is applied to the nail surface and the glitter is sprinkled on. Fill in, sweep off the excess, then with a firmer substance e.g. Flexi Hard Gel, Mani Gel Clear, Mani Gel extra clear, cover the nail with a little C-curve, closing the edges! After filling, fix the nail, shape the surface with a file/buffer and cover with Extra Top, closing the edges!

# DIAMOND GLITTER PIXIE

Exclusive pixie effect combined with diamond sparkle! Thanks to reflective pigments, it sparkles from every angle as the light shines on it, while the Crystal pixie-like glitter shape makes your nails stand out from the crowd.

How to use: Apply top coat or Nail Art Glue Gel to the finished nail, over the entire surface or by drawing a pattern, sprinkle the glitter in it then set in the lamp for 1 minute. After lamping, sweep off any excess. Do not cover with top afterwards! You can also use it as an built-in!

**Sparkling finish:** Apply 2 coats of gel or gel polish and sprinkle the chosen decoration on the second coat, then leave in the lamp for 1 minute. After lamping, sweep off the surface, then coat the nail with 2 coats of Extra Top. If the nail would be uneven with larger glitter particles, buff the surface after the light gel and cover with another coat of Extra Top.

**Mermaid effect - gel-lac:** After applying 2 coats of colour, use a thin layer of a transparent gel polish (e.g. Mani Gel Top), which sets to a sticky consistency, then press the chosen decorative ornament into the sticky layer after curing, then smooth the grains in a gentle circular motion.

**Mermaid effect – gel polish:** After applying 2 layers of color, use a thin layer of a transparent gel polish with sticky layer (e.g., Mani Gel Top), then, after curing, press your chosen decoration into the sticky layer. Gently smooth the particles with circular motions. Apply 2 layers of topcoat with Extra Top, curing the first layer for 10 seconds and the second layer for 1 minute.

**Candy effect:** On the finished, glossed or matted nail surface, draw the pattern, using a colour similar to the glitter (so that the colour difference is not noticeable when worn). Before curing, apply one of the tiny glitters and cure for at least 1 minute. Brush off any excess glitter from the finished pattern. Do not cover with glitter afterwards!
